

PROGRAMME SPECIFICATION

KEY FACTS

| | |
|--------------------------|-----------------------|
| Programme name | Modular Executive MBA |
| Award | MBA |
| School | Bayes Business School |
| Department or equivalent | Bayes MBA Programme |
| Programme code | PSMMBA |
| Type of study | Part Time |
| Total UK credits | 200 |
| Total ECTS | 100 |

PROGRAMME SUMMARY

The Modular Executive MBA programme is designed for experienced managers, professionals and business people who wish to develop a broader understanding of the nature of management, organisation and business (core modules) and hone their understanding and skills to promote specific career goals (electives) whilst continuing in employment. The student's average age is in the mid-thirties with on average of 12 years of managerial or professional experience. The cohorts are hugely multi-cultural, drawn primarily, but not exclusively, from the UK and Europe.

The Modular Executive MBA is a part time programme and core courses are delivered in a monthly, blended, block taught format, comprising one long weekend a month alongside both synchronous and asynchronous online content. Bayes full-time and visiting staff lead these sessions with content designed to maximise the potential benefits of the structured study material.

The Modular Executive MBA programme is undertaken in two stages over a two year period. Prior to the start of the course, in order to help you prepare, you will be given access to two preparatory, self-paced modules. These modules are pass/fail only and can be completed at any time during your first year. Further, in Stage 1, the first year of the programme, you are required to take 15 core modules and the International Consultancy Week. In Stage 2, the second year of the programme, you are required to take 60 credits of electives. The 60 credits can be earned in either 5 credit (typically 15 contact hours) or 10 credit (usually 30 contact hours) electives. The wide portfolio of

electives also includes a number of online electives, enabling you to study and engage with your course from anywhere in the world, should you so choose. In addition, you will produce an individual Business Mastery Project (BMP) report of maximum 15,000 words (50 credits).

During Stage 1 & 2 you must undertake the Continuing Professional Development module, which will have a special schedule.

Aims

The overall aim is to educate you as managers and business specialists and thus to strengthen the quality of the management of public, private and not-for-profit organisations both small and large and with both formal and informal structures. The Programme adds value to your first degree(s) and previous experience through the development of an integrated and critically aware understanding of management and organisations and preparing you to fulfil organisational roles, including those in multi-national organisations, in a highly effective and ethical manner.

Specific objectives include:

1. To develop a sound understanding of organisations, their management and their changing external context
2. To build strong career potential for you in business and management by developing highly professional skills and an attitude towards leadership, change and enterprise which is both positive and critical - to reflect the dynamism and vibrancy of the current business and management environment
3. To strengthen your ability to apply knowledge and understanding to complex issues, both systemically and creatively, so that theory is converted into practice from a critical and informed perspective, thereby enhancing organisational effectiveness and competitiveness
4. To enhance lifelong learning skills to ensure continuing self-direction and originality in professional development, personal effectiveness and expertise.

WHAT WILL I BE EXPECTED TO ACHIEVE?

On successful completion of this programme, you will be expected to be able to:

Knowledge and understanding:

- Evaluate organisations, their management and their changing external context, including the wider social, political and economic forces.
- Debate the concepts articulated in leading edge research such that you can evaluate its validity and its relevance to current issues as well as extrapolate its significance to new and unfamiliar situations and problems.
- Research and analyse major business disciplines in depth and breadth and be aware of new and emerging subjects which will influence next generation business practice.
- Assess the impact of cultural differences on the role and practice of effective management.

Skills:

- Use all the necessary tools in order to formulate decisions in the areas encompassing all aspects of business management.
- Apply learning gained during the programme to everyday workplace experience.
- Design investigative methods for issues of competitive or organisational value: to identify relevant data, designs and workable analytical approaches in order to produce reliable and valid conclusions.
- Carry out independent research in one or more of the subject areas and present your research in a coherent and professional manner.
- Learn independently and reflectively to enhance personal development and effective business practice.
- Give effective presentations to an audience.
- Think creatively using brainstorming, brain writing and other creative problem solving techniques.
- Manage and lead in an emotionally intelligent manner and adopt an appropriate management style.
- Undertake negotiations and manage conflict.
- Work effectively in multi-cultural groups as team member or leader.
- Deal effectively with the media.
- Use software to give presentations and produce documents, analyse datasets, and work virtually.
- Solve problems and take decisions: establishing criteria, using appropriate decision making techniques including identifying, formulating and solving business problems, identifying and evaluating options, implementing and evaluating the effectiveness of solutions.

Values and attitudes:

-
- Take an ethical approach to work, which resonates to that of a professional business person (especially the concept of "fairplay") in the practice of business in all the areas covered by the programme.
- Work effectively within a team, while being tolerant of disagreement, and open and sensitive to diversity in business, cultures and people
- Engage in reflective, adaptive and collaborative learning
- Engage with a number of different approaches to learning, teaching assessment and inter-personal communication.
- Assess the human side of enterprise and its significance.
- Demonstrate an understanding of the social responsibility of organisations.
- Explain the benefits of treating people in the workplace with integrity and respect and the consequences of not doing so.
- Recognise, appreciate and respect the cultural, ethnic and gender diversity in organisations.

This programme has been developed in accordance with the QAA Subject Benchmark for Business and Management.

HOW WILL I LEARN?

- The programme reflects the pedagogic philosophy of Bayes Business School: advanced, technically challenging and integrated education to prepare business professionals and leaders to operate at decision-making levels
- The breadth and structure of the MBA as a Masters level programme demands a compatible breadth in learning strategies. Core theory is learned through textbooks, handbooks and self-study. Understanding and application of theory is developed through case teaching, formal lectures, group work, seminars, discussions, workshops, exercises and projects. Professional skills modules typically involve experiential learning methodology. Students are required to complete extensive preparation for lecture sessions and are encouraged to learn from each other's practical experience and cultural and functional perspectives through group work
- Emphasis is placed upon the specific acquisition of both the theoretical foundations of various decision-making tools and their application in practical, real-world contexts
- You will present some of your work to lecturers, visitors from the City and other members of the class, which will give invaluable practice in using, applying and expressing complex subject matter clearly and concisely to a business audience
- You will undertake individual and group-work (some of which will be undertaken in semi-virtual teams) for the preparation of case studies, research tasks, and other assignments. This will consolidate your acquired knowledge and also build your interpersonal and communication skills which are essential for your further career development
- There are approximately 517 direct contact hours over the two years, but you should expect to put in an estimated 1,483 hours of additional work towards self-directed study, research and write-up of individual assignments, collaboration in group assignments, as well as revising for, and taking, examinations
- In all modules, face-to-face teaching is complemented by material on City's virtual learning environment
- At the end of Stage 1 you will undertake an integrating exercise called the International Consultancy Trip which will bring together all of your theoretical learning gained during the year in a practical real world environment. This will apply the theories learnt in Accounting, Finance, Strategy, Information Management, Marketing, Organisational Behaviour and Business Economics. You will work as a group of consultants for a Small to Medium Enterprise (SME). The practical learning will be shown through a formal presentation to the companies concerned as well as a written report. Prior to undertaking this module you will attend consulting skills workshops designed to provide you with the skills and tools to complete the module.

Summary of Course Hours (Approximate)

Contact Hours = 517

Self -Study = 1,483

Total = 2,000

WHAT TYPES OF ASSESSMENT AND FEEDBACK CAN I EXPECT?

Assessment and Assessment Criteria

Assessment aims to evaluate students' ability to handle complex business and organisational situations holistically with particular strengths in analysing, synthesising and solving complex unstructured business problems and implementing agreed solutions effectively and efficiently. To achieve this, students need to demonstrate:

- systemic understanding of organisations, their external context and how they are managed
- application of relevant knowledge to a range of complex situations taking account of inter-connectedness internally and externally with other parts of the organisation and with stakeholder organisations
- critical awareness of current issues in business and management and leading edge research and practice in the field, including sound understanding of how research is used to develop and interpret knowledge in this field
- understanding of appropriate techniques for detailed investigation of vital business and management issues
- ability to identify, analyse and evaluate the validity of relevant data, and to synthesise varied and complex information in order to apply it to new and unrelated situations or problems
- ability to communicate complex, policy-oriented information effectively using a wide range of media

Assessment criteria relate to validity, reliability and fairness, assessing appropriate aspects of knowledge and skill, supporting the aims of learning and teaching, providing opportunities for feedback wherever appropriate and open to external scrutiny (for example by external examiners) as appropriate.

Assessment Criteria are descriptions, based on the intended learning outcomes, of the skills, knowledge or attitudes that you need to demonstrate in order to complete an assessment successfully, providing a mechanism by which the quality of an assessment can be measured. Grade- Related Criteria are descriptions of the level of skills, knowledge or attributes that you need to demonstrate in order to achieve a certain grade or mark in an assessment, providing a mechanism by which the quality of an assessment can be measured and placed within the overall set of marks. Assessment Criteria and Grade-Related Criteria will be made available to you to support you in completing assessments. These may be provided in programme handbooks, module specifications, on the virtual learning environment or attached to a specific assessment task.

Assessment is carried out according to context and purpose and, where different methods of assessment are in use and recognises that you may exhibit different aptitudes in different forms of assessment. Also assessment methods encourage you and give you credit for clear explanations and a high standard of English.

You will be assessed through a number of diverse, but complementary, methods, including examinations (primarily paper-based), invigilated coursework (tests under exam

conditions, non-invigilated individual coursework, assessed group-work (for example case studies and business plans) and class presentations.

A major course project (Business Mastery Project) facilitates the integration of learning and is designed and managed by students with both considerable independence, and support and advice from an academic supervisor: it provides a clear assessment of both the growth of independence of learning and the ability to integrate learning from the MBA in a holistic way.

Feedback on assessment

Feedback will be provided in line with our Assessment and Feedback Policy. In particular, you will normally be provided with feedback within three weeks of the submission deadline or assessment date. This would normally include a provisional grade or mark. For end of module examinations or an equivalent significant task (e.g. an end of module project), feedback will normally be provided within four weeks. The timescale for feedback on final year projects or dissertations may be longer. The full policy can be found at:

https://www.city.ac.uk/_data/assets/pdf_file/0008/68921/assessment_and_feedback_policy.pdf

Assessment Regulations

In order to pass your Programme, you must successfully complete the required modules and assessments totalling 200 credits. You will also need to pass Stage 1 of the Programme in order to progress to Stage 2.

The pass mark for each module is 50%.

The rules governing calculation of module marks are as follows:

- a) An aggregate mark of no less than 50% for each module. In addition, a mark of no less than 40% must be achieved in each assessment component of the core examined modules
- b) Any module with an aggregate mark of less than 50% must be re-sat. Students will be required to retake any assessment component in that module where the mark is below 50%.

If you fail an assessment component or a module, the following will apply:

Resit: you will be offered one resit attempt. If you are successful in the resit, you will be awarded the credit for that module. The mark for each assessment component that is subject to a resit will be capped at the pass mark for the module. This capped mark will be used in the calculation of the final module mark together with the original marks for the components that you passed at first attempt.

If you do not meet the pass requirements for a module and do not complete your resit by the date specified you will not progress and the Assessment Board may require that you be withdrawn from the Programme.

A student who has not met the pass requirements for a Module due to failure in a resit may, at the discretion of the Assessment Board and under exceptional circumstances, be offered a second resit subject to the following conditions:

1. The resit is permitted for no more than one assessment component
2. The student does not attend City, and access is limited to certain learning resources for the component being repeated,
3. The marks that can be achieved for the component being repeated is capped at the module and/or component pass marks,
4. The student retains the marks for the modules and/or components already passed,
5. No further resit opportunities are permitted.

Where the Assessment Board is satisfied that a further opportunity to take the original assessment is not possible or is inappropriate, it may arrange for an alternative assessment task to be set, on the condition that it must be an equivalent task which will enable the relevant Learning Outcomes to be demonstrated

If you would like to know more about the way in which assessment works at City, please see the full version of the Assessment Regulations at:
http://www.city.ac.uk/data/assets/word_doc/0003/69249/s19.doc

WHAT AWARD CAN I GET?

The Masters Degree will be awarded if the student achieves:

- i) 200 credits (required core and correct number of elective modules)
- ii) An award mark of no less than 50%

The Masters Degree with Merit will be awarded if the student achieves

- i) 200 credits (required core and correct number of elective modules)
- ii) An award mark of between 65% and 69.9%
- iii) No modules failed at the first attempt

The Masters Degree with Distinction will be awarded if the student achieves

- i) 200 credits (required core and correct number of elective modules)
- ii) An award mark of at least 70%
- iii) No modules failed at the first attempt*

*If a student fails one module at the first attempt, and subsequently passes that module, and achieves an award mark of 70% or above, they will be eligible for a Merit.

Master's Degree:

| Part | HE Level | Credits | Weighting (%) | Class | % required |
|--------|----------|---------|---------------|------------------------|------------|
| Degree | 7 | 200 | 100 | With Distinction | 70 |
| | | | | With Merit | 65 |
| | | | | Without classification | 50 |

WHAT WILL I STUDY?

CREDITS

Stage One

2 compulsory online preparatory modules, not credit bearing

15 core modules of 15 hours face-to-face teaching x 5 credits each = 75 credits

International Consultancy week = 10 credits

Continuing Professional Development = 5 credits

Sub-total 90 credits

Stage Two

Electives amounting to 60 credits

Business Mastery Project = 50 credits

Total Modular Executive MBA programme credits = 200 credits

Preparatory modules

| Module title | SITS Code | Module Credits | Core/ Elective | Compensation Yes/No | Level |
|--|-----------|----------------|----------------|---------------------|-------|
| Accounting and Financial Reporting | MBM703 | N/A | N/A | N | y |
| Mathematics for Management and Finance | MBM701 | N/A | N/A | N | y |

| Start-ups in Latin America: Practicing Entrepreneurship | MBM187 | 10 | E | N | 7 |

** The pre-requisite to this module is successful completion of the 5 credit module 'Leading Digital Transformations' MBM173.

*** Cannot be taken alongside 'Investment Strategy and Practice' MBM819.

**** Cannot be taken alongside 'Mergers and Acquisitions (online)' MBM820.

***** Cannot be taken alongside 'Private Equity (online)' MBM821.

This list of electives is an indication of the range of modules that can be on offer and is subject to change due to circumstances such as: enhancing or updating the quality and content of educational provision; responding to student feedback; academic staffing changes; the number of students in each programme; a lack of student demand for certain modules; or factors beyond the institution's reasonable control, such as meeting the latest requirements of a commissioning or accrediting body. For these reasons, not all the electives listed will be offered every year. New (additional or replacement) modules may also be added for these reasons.

The list of electives offered in a given year (September to July) will be confirmed by the first week of June of the preceding academic year.

Electives can be offered to MBAs in a different format and timetable to the core modules of the programme chosen. In order to have access to a wider array of electives, students should be prepared to adapt their personal agenda to the schedule of the modules, which can vary every year for the reasons mentioned above. The MBA will use all reasonable endeavours to ensure that at least the required number of credits are delivered in the basic format and location of the core courses of the programme chosen.

Real Estate Finance and Investment electives: the option to take some of the following modules from the MSc in Real Estate Investment is open to MEMBA students, who will have to adapt to the particular schedule and assessment criteria of the MSc modules. If you are interested, please ask your Course Officer for details. This

option is subject to availability and can be affected by changes in the design or timetable of the MSc programme.

| Module Title | SITS Code | Module Credits | Core/ Elective | Compensation Yes/No | Level |

TO WHAT KIND OF CAREER MIGHT I GO ON?

Students typically have the ambition either to progress to more senior management and strategic roles in their organisation, enter a consultancy type firm, change sector, or start up their own business.

For information on the Careers support available at Bayes, please go to: Bayes Careers Online www.cass.city.ac.uk/careersonline

WHAT STUDY ABROAD OPTIONS ARE AVAILABLE?

- You may choose to select Electives delivered at Bayes Business School's Dubai Centre and attend classes at that location during their elective period.
- You may also choose to take part in an International Study Tour, and will study abroad during your International Consultancy Week.

WILL I GET ANY PROFESSIONAL RECOGNITION?

Accrediting Body: Association of MBAs

Nature of Accreditation

Periodic reaccreditation every 4-5 years.

Approval of quality of design, content & administrative support.

HOW DO I ENTER THE PROGRAMME?

To be considered for the EMBA, candidates are required to have:

- A good university degree or appropriate professional qualification. Candidates who do not have a degree or a professional qualification may be considered on the basis of evidence of their ability to study successfully at postgraduate level, such as Graduate Management Admissions Test (GMAT), together with evidence of substantial business or professional achievement and,
- A minimum of five years full-time relevant work experience gained after graduation and if English is not the candidate's first language, they will require a minimum well-balanced IELTS score of normally 7.0. This may be waived if the candidate has worked or studied in an English-speaking environment for at least a year.
- Applicants will also be required to submit a resume and two professional referee reports.
- All offers will be subject to face-to-face or telephone interviews, where interpersonal skills and English proficiency will also be assessed before formal acceptance onto the programme. Candidates whose language competence is considered borderline, may be required to take an MBA Pre-sessional English programme before commencing the MBA programme.

Version 11.0

Version date: March 2022

For use from: 2022-23
