

L10

Tenth International Longevity Risk and Capital Markets Solutions Conference

On the 3rd and 4th of September 2014 at the Universidad Diego Portales

Av. Santa Clara 797, Huechuraba

Santiago, Chile

Host: Universidad Diego Portales, Santiago, Chile;

Co-hosts: Edmondson-Miller Chair, Illinois State University, USA;

Pensions Institute, Cass Business School, City University, UK;

Call for Papers

The ageing population and increases in longevity have drawn attention to the management of longevity risk in pension funds, life insurers and health insurers. Governments face the challenge of financing an ageing population with longer life spans and providing an environment conducive to private market solutions. Reinsurers and financial market innovations such as securitization are critical components in the management of longevity risk. Leading international industry and academic representatives as well as policy makers will meet and discuss not only the assessment of longevity risk, but also the market and government developments and responses needed by pension funds and insurance companies to manage this risk. The key theme of Longevity 10 is “**Why longevity risk transfer makes economic sense [for insurers and investors]**”.

Keynote speakers include: **Jeff Mullholland**, Managing Director and Head of Insurance and Pension Solutions-Americas for Société Générale; **Professor Moshe Milevsky**, York University; **Guy Coughlan**, Pacific Global Advisers; and **Professor Angus Macdonald**, Heriot Watt University.

Submission Instructions

Academics and practitioners are invited to submit papers in all areas relating to longevity risk and capital markets solutions. Authors whose papers deal with longevity risk, morbidity risk or mortality modeling should demonstrate how their model contributes to the development of a longevity-linked capital market. Papers that satisfy these criteria will then go through a standard refereeing process for inclusion in the conference.

The deadline for paper or abstract submission is 30 April 2014 and decisions will be communicated to authors in June 2014 when the formal programme for the conference will be announced. Jointly authored papers should be submitted by the person who will present the paper if it is accepted.

Scientific Committee

Submitted papers will be reviewed by the Scientific Committee:

- Marco Morales (UPD)
- David Blake (Cass Business School and Pensions Institute)
- Richard MacMinn (Illinois State University)

L10

The Journal of Risk & Insurance will publish a **Special Issue** of selected papers presented at the conference. All papers will be subject to the journal review process. The editors for this issue will be:

- Marco Morales (UPD)
- David Blake (Cass Business School and Pensions Institute)
- Richard MacMinn (Illinois State University)

Please email your paper or abstract to Marilyn.Parris-Bell.1@city.ac.uk by 30 April 2014.
