It is suitable for existing marketing and fundraising professionals located within the voluntary sector and for those wishing to transfer relevant skills and knowledge from experience gained in other sectors.

As a student you will gain:

- Practical application of key strategic marketing concepts and tools in different voluntary sector contexts
- Clear understanding of the design, implementation and evaluation of alternate contemporary fundraising strategies and techniques
- Relevant marketing and fundraising management competencies, leadership skills and analytical capabilities
- Access to a strong and vibrant learning community within the Centre and sector
- Confidence and empowerment to enhance your career in the sector.

## WHAT SETS THE MARKETING AND FUNDRAISING COURSE APART

**Future-facing:** the course focuses on the contemporary adoption and application of the strategic marketing paradigm as it impacts all facets of voluntary sector management. The application and evaluation of marketing to promote greater effectiveness in resource acquisition and resource distribution are discussed alongside the practical application of key strategic marketing concepts and planning disciplines to the voluntary sector context. The focus is on the application and appraisal of a strategic marketing approach alongside effective management of brand, alternate channels and marketing communications. Within this strategic

marketing focus, alternate approaches to fundraising strategy are introduced alongside the important constraints of ethical best practice and contemporary regulation as they apply to fundraising strategy. Adoption of alternate fundraising techniques are reviewed together with their selection and application within the context of a robust and accountable strategic framework.

**Both academic and applied:** the course combines the academic rigour of a globally respected business school with a highly practical and applied approach. The course is delivered by senior academics with first-hand experience and ongoing involvement in the sector. In addition, guest lectures are delivered by senior marketing and fundraising practitioners presenting contemporary issues and exploring the complexity of the real world challenges they face. The shadowing/fieldwork exercise, a key component of the course, provides students with a unique insight into the day-to-day realities in applying marketing or fundraising in the context of voluntary sector management.

**A rich learning environment:** the course lecturers are among the most highly regarded in the University and several have been awarded prizes for the quality of their teaching. Personal reflection and learning is encouraged through action learning sets and the coaching opportunities that are available. We place considerable emphasis on student participation and interaction. Together with the diversity of the student cohort each year, this creates a stimulating learning environment.

# Our students

All students are highly motivated graduate-level people who bring a wide range of professional competencies, skills and experience from a wide range of backgrounds.

Typically, we ask for:

- A good first degree, normally a 2.1 Honours degree from a British university or an equivalent qualification from a leading overseas institution;
- And three or more years relevant experience at a senior level. In exceptional cases we will accept those without a degree, provided they have significant and relevant work experience

Past students have come from voluntary sector organisations of all sizes, as well as foundations, business and the public sector. Past students include both full and part time staff members and those operating as trustees and volunteers.

## **Zoe Marlow**

**Head of Client Relations (Education), Sannam S4**

The Charity Marketing and Fundraising course gave me some much needed intellectual rigour and helped develop a much more analytical and reflective approach. This has been invaluable in my new job; in fact, I wouldn't have got this job without this more strategic thinking.

## **Stephanie Lawless**

**Community and Events Fundraising Manager, Dogs for Good**

I specialise in fundraising but wanted a wider understanding of the third sector as a whole, in order to aid my development and to give me a better grounding as a senior manager in my organisation. The course was challenging but manageable when working full time and the lecturers and guest speakers were all excellent.

## **Marco Greco**

**Head of Development, Just like Us**

The course covered a fantastic breadth of topics in great detail, merging theory with practical real world solutions and prepares students to take on the challenges currently facing the voluntary sector. Completing this course provided me with the skills, knowledge and confidence to apply for and secure a more senior role in a new organisation.

# Programme Overview

## NATURE OF TEACHING PROVISION

**The full MSc is taught on a part-time basis over a period of two years. Alternatively, some students wish to graduate after the first year with a Postgraduate Diploma.**

It is one of the five postgraduate courses offered by Bayes Business School's Centre for Charity Effectiveness (CCE).

CCE inspires transformation and delivers positive change within the nonprofit sector through a mix of educational programmes, consultancy services and convening activities.

The first year is common to both the MSc and the PgDip and to all of the Centre's postgraduate courses. It consists of five core modules which all students take. These core modules provide the essential underpinning of management skills for the specialist modules.

To complete the full MSc, students are required to take the Research Methods for Managers module in the second year. They may then elect to conduct six months of personal supervised research and the presentation of a 15,000 word dissertation. Alternatively, they may choose to attend the Social Enterprise module and the two taught Specialist Pathway modules of one of the other courses as a Taught Masters.

All courses are taught at Bayes Business School and will require attendance one weekend each month commencing on Friday afternoon from 13.00 to 21.00 and finishing on Saturday at 17.30.

Additional attendance will be required (first year only):

- On the Induction Day (the Friday of the October weekend of the course)
- For Action Learning Set meetings (usually alternate months, on Friday morning of the teaching weekend)

Nonprofit Masters: Key Learning Outcomes

- A broad knowledge and understanding of nonprofit organisations, the external context within which they operate and how they should be led and managed (integrating the different disciplines in an holistic way)
- Deep knowledge and understanding of the specialist subject areas chosen for further investigation in the specialist pathway element of the course
- Develop and challenge programme participant's understanding and appreciation of the conceptual foundation of these fields and of their relevance in an applied setting
- A range of cognitive, intellectual and personal/interpersonal skills and techniques to apply directly to day to day work
- The opportunity to develop deep and relevant insights into charity management from peers of different but related backgrounds (through networking, study and sharing of ideas)
- The ability to deliver direct benefits back to their organisation in the form of recommendations for improved effectiveness across all the subject areas covered.
