

**Bio:**

Saipriya Kamath is a doctoral candidate in Accounting area at the Indian School of Business. She studies factors that impact the behavior of information intermediaries and corporate governance gatekeepers – auditors, boards, and credit rating agencies. Contributing to the emerging literature on learning by auditors, her job-market paper examines whether audit firms implicated in large audit failures exhibit long-term learning. This paper also explores both rational and psychological factors impacting auditor behavior. Her job-market paper recently won the best-paper award at the IMR Doctoral Conference across all areas in management. Saipriya is expected to graduate in May 2016.

Prior to Indian School of Business, Saipriya gained experience in the industry for five years. She worked as a business analyst at Accenture and as faculty of mathematics at a leading test-prep academy. She received her Bachelor degree in Electronics and Communication Engineering from Visvesvaraya Technological University.
