Partnering for Personal Best

a programme for supportive, inspiring connection

Across sectors, women remain underrepresented in leadership positions.

The Bayes Global Women's Leadership Programme is offering a unique form of peer-to-peer mentorship aimed at providing structured networking opportunities for women students in postgraduate programmes at Bayes. The programme focuses on the development of meaningful, one-to-one connections that allow participants to exchange skills, set and track personal challenges and share strategies to excel in male dominated fields. Group events will also be organised, providing a supportive and open environment for broader networking. This is a setting where you can be real, build trust, and develop a meaningful relationship during a time when those deeper connections can be harder to find.

To apply for a spot in the Peer Mentoring Programme, fill out the survey below and mark your calendar for our kick-off brunch on Sunday 22nd January 2023. Our women's leadership scholars will help pair you with a partner in success, and provide inspiring content as we all motivate each other and move forward together.

Global Women's Leadership Programme: More than a network. A community.

HOW IT WORKS

- 1) Application is open to Bayes female students studying in any course of the Master's, MBA, and EMBA programme.
- 2) Your survey will help us pair you with a like-minded partner. You can also sign up with a partner in mind and let us know.
- 3) Throughout the term, you meet monthly one-on-one, with as much ongoing communication as you prefer. You each set a personal goal for the month, things to try and reflect on, and a forum to give each other feedback. Your partner brings support and accountability as you try new things, in class or at your job, to grow as a leader and communicator.
- 4) You'll receive monthly prompts and tools curated by Global Women's Leadership Programme Scholars.
- 5) We give incentives for knowledge-sharing with the wider group, plus a term-end reflection and celebration.
- 6) The number of intakes is limited and don't worry if you are not matched with a partner. Please stay in touch with the Global Women's Leadership Programme for more events.
Email bayesGWLp@city.ac.uk to join our mailing list.
- 7) Application deadline: Friday 16th December 2022.
